Now you can start adding the borders.

- Measure the quilt through the center of the length. Sew **(1³/₄" x WOF)** Red fabric strips together to make **2** strips equal to the length of the quilt. Add these to both sides of the quilt and press seams open. Repeat this step measuring through the width to create **2** more Red fabric strips for the top and bottom of the quilt.
- Measure the quilt through the center of the length. Sew **(2¹/₂" x WOF)** Background fabric strips together to make **2** strips equal to the length of the quilt. Add these to both sides of the quilt and press the seams open. Repeat this step measuring through the width to create **2** more Background fabric strips for the top and bottom of the quilt.
- Repeat the previous step to create borders for the outside border of the quilt. Use the **(3¹/₂" x WOF)** strips for the side borders. Add the outside border sections to the long sides and press open. Use the **(5¹/₂" x WOF)** strips for the top and bottom borders. Again, measure the width of the quilt and cut the **5¹/₂"** strip to create the top and bottom borders.

Note: The extra width of the top and bottom borders brings the quilt size closer to the QOV standard length of **80"**. Finished size of this quilt is **60.5" x 76.5"**.

Layer and quilt as desired.

Sew the Binding strips together to equal the length needed to cover the edges of the quilt. Apply to the front of the quilt and hand stitch to the back of the quilt.
